MERCEDES VS. DEER

On the third day of Rendezvous, our catering team had an unfortunate encounter with a foolish deer. Luckily the humans prevailed, thanks to their 2015 Mercedes 450GL.

"We barely felt anything," Retta James of R & R Catering reported. The grille of the vehicle took the brunt of the impact, and the team was able to drive on... a true testa-

ment to German engineering!

And the Manufacture of the Control o

CROSS 6.5 CREEDMOOR

The Cross is a precision hunting bolt-action rifle built on a lightweight chassis. At under 6.5 pounds, the Cross was designed to meet the demands of both precision longrange shooting and extreme backcountry hunting. The folding precision stock is highly adjustable, and the onepiece receiver is built for increased accuracy.

Caliber: 6.5 Creedmoor Sights: N/A

Barrel: 18 in. **Action: Bolt**

OA Length: 38.5 in. Finish: Black anodized

Weight: 6.8 lbs. (empty) Capacity: 5+1 Stock: SIG polymer AR type MSRP: \$1,779

SLX SUPPRESSOR

The SLX features a monolithic core construction for strength and durability, along with a flash-reducing end cap design. It can be mounted via direct thread or a Clutch-Lok QD system with an intuitive tactile locking ring and infinite radial locking positions. The internal multi-flow path allows gasses to exhaust faster than traditional baffle-style suppressors.

Caliber: 5.56mm

Weight: 17.3 oz

Material: Inconel

Attachment Type: Direct

Diameter: 1.67 in.

thread, Clutch-Lok QD

OA Length: 7.4 in.

MK22 RIFLE SYSTEM

The winner of the \$50 million USSOCOM Sniper Rifle Contract, the Mark 22 Advanced Sniper Rifle now sits at the tip of the spear of U.S. military might. Based on Barrett's Multi Role Adaptive Design Sniper Rifle, better known as the MRAD, the Barrett Advanced Sniper Rifle System exceeded SOCOM's stringent requirements for the Mark 22 contract.

Caliber: 7.62 NATO, .300 Norma Stock: Folding MRAD Mag., .338 Norma Mag.

Barrel: 20, 26, 27 in. Action: Bolt-action

OA Length: 42.4, 48.4, 49.4 in. Finish: SOCOM Coyote brown

Sights: None; full-length Pic rail

Weight: 13.9, 15.1, 15.2 lbs. (empty) Capacity 10+1

Specifically engineered for the M107A1, Model 99, and Model 95, the QDL attaches to the rifle via proprietary recoil reducing muzzle brake, and maintains 100% function and reliability. The baffle stack features redundant 360 degree CNC welds to contain the extreme pressures, while the suppressor's dual-layered tube is constructed of high strength alloys to ensure both durability and safety in any condition.

Caliber: .50 BMG Finish: Black or FDE Cerakote

Length Added: 12.73 in. Total Decibel Reduction: 23 dB

Diameter: 2.5 in. Mount: Quick Detach 1/4 Turn Lock Ring

Length: 14.84 in. Materials: 4130 Steel

Weight: 4.88 lbs.

SPRINGFIELD ARMORY.

SPRINGFIELD-ARMORY.COM

MS4 DUAL QD SLING GEN 2

Filling the same mission requirement as the MS3, the MS4 can quickly switch between one-point and two-point configuration. It maintains material construction and specifications identical to that of the standard MS3, but instead of Magpul Paraclips, it features two heavy-duty push-button QD Sling Swivels, along with a custom steel connection ring to allow one to two-point convertibility. This modification allows compatibility with QD sling cups commonly found on lower receivers, receiver end plates, buttstocks, and many low-profile forward QD Sling Mounts.

GLOCK D50 DRUM

Formally called the Pmag D-50 GL9-PCC, this 50-round drum magazine is lightweight and incredibly strong. The magazine boasts many of the features of its 5.56 and 7.62 predecessors while providing a similar magazine capacity increase. Even with 50-round capacity, the unique drum configuration keeps the height of the magazine manageable, allowing for prone firing and easier storage.

SMITH & WESSON

S&W's new M&P 10mm M2.0 packs a lot of wallop into a fairly small package. This newest iteration, chambered in the powerful 10mm Auto cartridge, features a flat-faced trigger, lower bore axis and 18-degree grip angle customizable with four interchangeable palm swells. Carrying 15+1 rounds of 10mm, this pistol is a game changer.

MOAB 10 SLINGPACK 18L

The MOAB, or Mobile Operation Attachment Bag, is a customizable 18-liter sling bag that gives plenty of room for gear. The MOLLE/5.11 SLickStick webbing platform exterior gives unlimited options for expansion packs. The ambidextrous sling features a comms pocket at the shoulder for pass-through access for mobile devices. The covert rear pocket is built for fast carry-weapon access. The MOAB 10 also features a 1.5-liter hydration pocket and sunglasses pocket. MSRP: \$100

RIDGE PANT

The Ridge pant is an update on the popular Apex line, with the same pocket layout including the IWB flex cuff tunnel, hidden cuff key pocket, and internal cargo pocket with magazine dividers. The cut has been updated for a more modern, slimmer fit. Built in a 67% polyester/ 33% cotton Flex-Tac canvas, 6.4-oz., fabric with a Teflon finish. The Ridge pant carries on the Apex legacy, with all the loved pocketing and functionality, with a more modern style. MSRP: \$85

OUTPOST CHRONO WATCH

The Outpost Chrono provides precision timekeeping functionality with a tonal tactical appearance and features a 44mm stainless steel case (44mm) with an IP coating and mineral crystal face. The Outpost has a pull-crown for time adjustment and start/stop buttons for its stopwatch features. Hands and hour marks feature luminous material. It's water resistant to 100M/330FT/10ATM, has a removable 22mm webbing band and is available in two color options. MSRP: \$120

PT-R CATALYST 1/2 ZIP

The Catalyst 1/2 Zip features a pull-over style with a 1/2 zip to let in the cold just enough for a cool-down down after a run. The Catalyst 1/2 Zip has 87% polyester/13% elastane jersey fabric with wicking and anti-odor technology to keep sweat under control. It's the epitome of comfort, style and quality. MSRP: \$52

5.11 TACTICAL

A/T TRAINER

Get your physical training off on the right foot with the A/T Trainer. With high-abrasion mesh and welded support for structure, these shoes are comfortable and durable. Available in a variety of colors, they have all the features of the All Terrain Load Assistance System and are designed to help crush every kind of workout. MSRP: \$130

RANGE READY TRAINER BAG

The Range Ready Trainer Bag has space to hold everything you need for a day at the range. Fully padded with a PE board base to keep gear safe while removable dividers make the bag customizable. Internal quick access elastic mag and accessory panel as well as elastic loops under the lid provide the ability to carry loaded, and that's just the main compartment; three side compartments and MOLLE webbing allow for taking even more. MSRP: \$140

EFLX MINI REFLEX SIGHT

The new EFLX Mini Reflex Sight is EOTECH's first venture into reflex technology optics. Ideal for professional use, hunting, home defense, and more, the EFLX can be used on a variety of platforms. Designed for pistol use, the EFLX base is configured to the Leupold Delta Point Pro footprint and will adapt to appropriately milled slides or onto a rear dovetail mounting adapter. The EFLX is also ideal as a 1X solution on rifles with magnified optics. Its durable, heavy duty aluminum housing provides a large, square viewing window, similar in shape to EOTECH's HWS, that makes the 3 or 6 MOA aiming dot easy and quick to find. A top load, single 2032 battery provides roughly 20,000* hours of run time.

PECS

Dimensions: 1.9" x 1.2" x 1"

Weight: 1.4 oz.

Water Resistant: 33 ft. depth

Mount: Leupold Delta Point Pro

Windage & Elevation Adjustment:

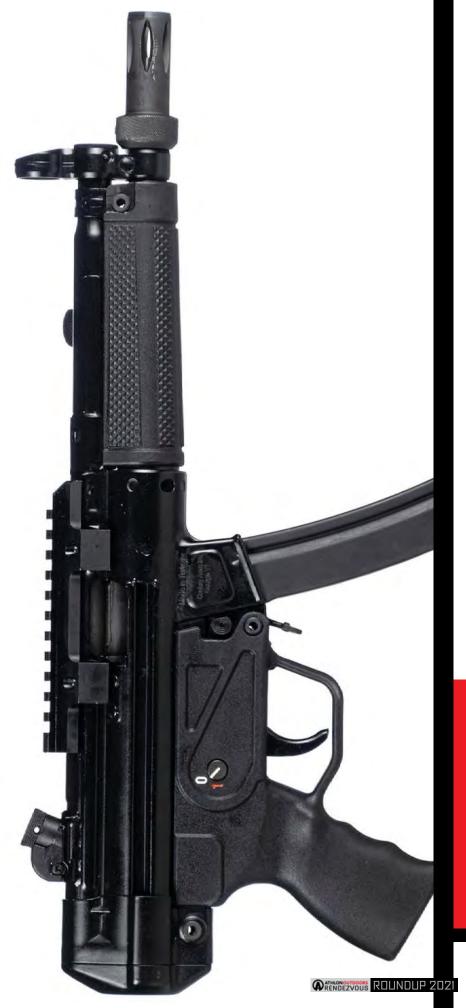

1 MOA per click

MSRP: \$2,000

CENTURY ARMS CANIK

PRO GUIDE TRIPOD KIT

The new Pro Guide Tripod Kit from Leupold is packed with highend features with a price that won't scare you into leaving it in the truck. Carbon fiber and aluminum components weigh in at only 4 pounds, and with the addition of the center column, its max height is 67 inches. The aluminum ball head is smooth and strong and comes with an Acra-Swiss mounting plate. The Pro Guide has a max load capacity of 40 pounds, so the addition of the included counterweight hook lets the user add weights for stability. The pivot locks have three settings, allowing the legs to extend wider and lower, meaning you can get comfortable in almost any position. MSRP: \$599.99

PACKOUT PERFORMANCE EYEWEAR

Leupold's Packout Eyewear is built for hunters, shooters, and outdoors enthusiasts. The ANSI Z87.1+ ballistic rating lenses are shatterproof, lightweight and flexible. They are also optically decentered, meaning that the lenses are machined so that the clearest part of the lens sits directly in front of your eye, which eliminates distortion for maximum clarity. The lenses are also treated with Guard-Ion hydrophobic coating, and DiamondCoat, helping to keep them free of dirt, fingerprints, and scratches. The frames are made from TR90-NZZ, which has a very high flexural fatigue strength, is tough at low temperatures, and provides great impact, chemical, and UV resistance. The polarization is infused, meaning that the polarizing film is layered within the polycarbonate, and won't wear or scratch MSRP: \$189.99

AIRJAVELIN

The Umarex AirJavelin gives shooters more than enough power to hunt small game, and the AR-style buttstock makes maneuvering in the field easy. The weapon's CO2 system will send a 170-grain arrow downrange at speeds up to 300 fps, producing 34 fpe at the muzzle. Plus, it has a Picatinny rail for mounting optics.

Ammo: Arrows

OA Length: 34 in.

Weight: 3.9 lbs.

Mechanism: CO2

Velocity: 300 fps

Sights: Fixed rear and front

Rail: Weaver/Picatinny

Action: Bolt-action

Shots Per Fill: 27

MSRP: \$176

GAUNTLET 2

The Gauntlet 2 in .25 caliber raises the bar for PCP air rifle performance and value. It features a 24 cubic inch onboard tank that fills to 4,500 psi. Consequently, the rifle will shoot lighter lead pellets about 980 fps and generate about 51 fpe with popular standard weight pellets.

Caliber: .25

OA Length: 47 in.

Stock: Precision style adjustable

Barrel: 28.5 in.

Shot Count: 50-plus

Regulator: 2,100 psi

Weight: 8.5 lbs.

KNOWLEDGE & TALENT:MEET OUR CONTRIBUTORS

Our editors can push our massive amounts of content only by working with an incredible cadre of content creators. Collectively, they've won dozens of writing and shooting awards. This group is comprised of Marines and Army veterans along with former LE. One worked in military intelligence, while another served as a reserve police officer. From DOD personnel security, to Embassy duty, many have served our country.

The diversity of skills just begins there. We've got a History Channel *Top Shot* competitor alongside a DEA supervisory special agent. Plus, Army paratroopers, a combat medic, a former deputy sheriff and even the former director of the Patton Museum of Cavalry and Armor. One writer is a

mechanical engineer who summited Mount Denali in Alaska a stunning six times!

From flying helicopters to literally delivering babies, our team showcases a dizzying array of skills. A pair of our content creators even combine to speak several different languages, including Lithuanian, Croatian, German, Russian and Serbian! Some even speak decent English! In any light, these guys and gals are moving the needle.

After five years, Rendezvous has really taken on a life of its own. Our audiences now ask about it, looking for articles and videos "As seen at Athlon Outdoors Rendezvous." Especially on pre-SHOT Show released products, our fans want that breaking content.

REMINGTON

CORE-LOKT TIPPED

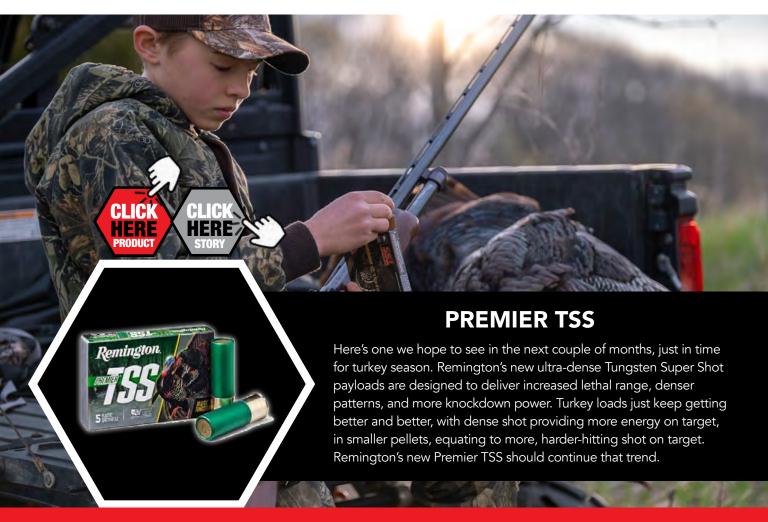

Remington Core-Lokt Tipped is billed as offering big-time, big-game performance. It takes the classic Core-Lokt bullet, improving for both accuracy and long-range potential. Remington claims it truer in flight, with a flatter trajectory. Meanwhile, the bullet is engineered to deliver great terminal energy. Core-Lokt Tipped comes loaded in .243 Win., 6.5 Creedmoor, .270 Win., .280 Rem., 7mm-Rem., 30-06 Sprg., .308 Win., .300 Win. Mag., and .300 WSM.

PETERS PAPER

Ok, this one is just really cool. Remington brought back Peters Paper, with traditional, paper hull shotshells. Remington tuned the new loads for trap, skeet and sporting clays pursuits. The shotshells deliver less felt recoil via the paper hull, making for a great day on the clays range. For anyone with a classic double, this is your new load.

FEDERAL

PUNCH

Federal's new Punch ammunition is specifically engineered for self-defense use out of short-barreled handguns—the firearms most commonly carried by law-abiding citizens for self-defense purposes. Punch ammo is available in a wide range of calibers including .22 LR, .380 ACP, 9mm .40 S&W and .45 ACP. Best of all, it's even quite affordable!

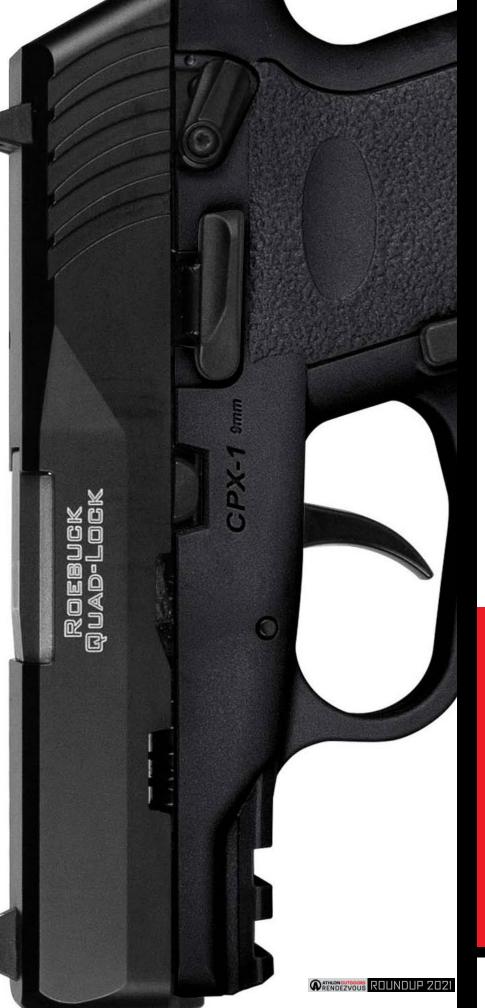

HAMMERDOWN

Designed for use in lever guns, Federal's HammerDown ammo really does put the hammer down on big-game animals. Featuring nickel-plated brass, specially formulated powder and a gold medal primer, HammerDown is loaded to velocities that provide superior ballistics through lever-action rifles. It's available in several calibers including the popular .30-30.

SCCY

CPX-1 GEN 3

The CPX-1 is a compact, hammer-fired, DAO pistol chambered in 9mm. With its external and ambidextrous manual safety you can count on the CPX-1 to be a safe, easy-to-use and reliable addition to your EDC arsenal. The third-generation of the CPX series brings an array of new features to the CPX-1 including picatinny rail, upgraded sights and an improved grip.

BULLETSAFE VITAL PROTECTION 3 (VP3) VEST

Made in the U.S., the BulletSafe VP3 delivers NIJ-certified Level IIIA protection. Not just for law enforcement or military, with a retail around \$300, civilians get serious protection for the cost of a modern reflex sight. The line offers eight different sizes, stopping bullets up to .44 Rem. Mag. You can even add rigid plates to the vest to up the protection level if you find yourself in a serious situation.

SIGHTMARK MINI SHOT A-SPEC M3 MICRO REFLEX SIGHT

Carry optics continue to be all the rage, and the Sightmark M3 Micro Reflex Sight makes for an incredibly affordable solution, retailing at just \$169.97. It works with the popular Shield RMS-C footprint. The optic boasts a red auto-brightness control reticle, accommodating shooting in any lighting condition. Built for subcompact pistols, it features an aluminum alloy housing, and remains water-resistant and shockproof. This bad boy will handle recoil up to .375 H&H, not likely used in your EDC hand cannon. The battery life delivers up to 100,000 hours of life, making this a great carry option.

WALTHER

PDP FAMILY

Building from the PPQ platform, Walther brings many design changes to the PDP (Performance Duty Pistol) family, which offers five sizes and configurations. There are two compact, 15-round pistols with a 4- or 5-inch barrel, and three full-size, 18-round models with a 4-, 4.5- or 5-inch barrel. The best part: Every slide fits any frame, and vice versa.

Caliber: 9mm Sights: Three-dot, white

() Barrel: 4.5 in. Action: Striker-fired

OA Length: 8 in. Finish: Tenifer

Grips: Polymer MSRP: \$649

PDP COMPACT

With revolutionary ergonomics, SuperTerrain slide serrations and a brand-new Performance Duty trigger, this is the next evolution in world-class ingenuity for pistols. At only 24.4 ounces empty and only 7.4 inches in overall length, the PDP Compact is as at home in daily carry as it is in a duty or home-defense role.

SPECS

Caliber: 9mm Sights: Three-dot, white

Barrel: 4 in. Action: Striker-fired

OA Length: 7.4 in. Finish: Tenifer
Weight: 24.4 oz. (empty) Capacity: 15+1
Grips: Polymer MSRP: \$649

PDP FULL SIZE 5"

The PDP Full Size with 5-inch barrel can serve just about any role a shooter would want out of a 9mm semi-auto pistol, from home defense to casual range use to the competition world. The SuperTerrain slide serrations guarantee easy racking even under tough conditions, and the new Performance Duty triggers breaks at a crisp 5.6 pounds.

PECS

Caliber: 9mm Sights: Three-dot, white

Barrel: 5 in. Action: Striker-fired

OA Length: 8.5 in. Finish: Tenifer
Weight: 26.9 oz. (empty) Capacity: 18+1

CZ-USA

P-10 M

CZ-USA's newest micro-compact pistol, the P-10M is made for concealed carry. Featuring an internal slide stop, the pistol has no controls or levers on either side of the gun except for the magazine release. The gun comes standard with a set of robust three-dot sights and has a capacity of 7+1 rounds of 9mm ammo.

Caliber: 9mm
Sights: Three-dot white
Barrel: 3.19 in.
Action: Striker-fired
OA Length: 6.31 in.
Finish: Black nitride
Weight: 20.1 oz. (empty)
Capacity: 7+1

Grips: Polymer

MSRP: \$499

600 SERIES

CZ-USA's 600 Series bolt-action rifles were designed to deliver features that matter to shooters, all with the traditionally high CZ standards of accuracy, reliability, durability and versatility in mind. Key features include a high-quality stock, vertical safety, short extractor controlled feed and, best of all, simple conversion from one caliber to another in nine chamberings from .223 to 7.62x39.

SPRINGFIELD ARMORY.

The Resort

An impressive group of the industry's leading content creators mingled with representatives from the world's premier firearms companies over a three-day stretch in Idaho's idyllic Teton mountains. There was no lack of conversation as like-minded people cultivated creative ideas, gained knowledge and strengthened connections.

As the manufacturers provided insight into their products, great stories were hatched.

Athlon Outdoors Rendezvous is a very special event because it offers the perfect balance of an intensive experience in the firearms arena while maintaining a fun and laid-back affair. It's the perfect formula for success to all who participate.

The Nomad-TI is an extension of the Nomad 30 Series at a lighter weight. With a titanium body, it weighs just 9.6 ounces. While not made for rifles that will endure a high round count, this lightweight jewel still provides excellent performance for magnum calibers and the firing schedules of most shooters and hunters.

PECS

Bore: .30 in.

OA Length: 6.5 in.

Diameter: 1.735 in.

Weight: 9.8 oz.

Construction: Fully welded titanium

Finish: Raw titanium satin

bead-blasted

MSRP: \$1,099

WOLVERINE

Dead Air's Wolverine is a very durable, high-quality suppressor intentionally designed to work on AKs with barrel and muzzle variations that can create baffle strikes on many suppressors. The Wolverine neutralizes common AK-related issues with a certain V-shaped baffle geometry that Dead Air tested on a broad range of AK rifles, including lesser quality imports.

SUB

Bore: 7.62 mm

PRIMARY WEAPONS SYSTEMS

CX BULLET 6.5 PRC 130-GRAIN COPPER-ALLOY

The new CX (Copper alloy expanding) bullet from Hornady represents the most advanced monolithic hunting bullet on the market. Its optimized design offers extended-range performance, greater accuracy, high weight retention and deep penetration. The 130-grain 6.5 PRC offering is sure to be a top-notch performer on medium- to large-game species.

SNAPSAFE KEYPAD DRAWER VAULT

This one-gun Keypad Vault takes up little space but delivers big security. Its programmable four- to six-digit keypad code provides optimum security, while the spring-loaded door opens immediately for quick access. Constructed of heavy-duty steel for exceptional durability, the vault includes pre-drilled mounting holes. Battery operated, it also features backup key lock override.

A22 PRECISION LITE

This semi-automatic is feature rich with upgrades to create a perfectly balanced target rifle. It features an exclusive Modular Driven Technologies (MDT) one-piece aluminum chassis with an adjustable cheek riser and length-of-pull spacers for the perfect fit. Plus, the already accurate, Savage precision button rifled barrel is upgraded with a carbon-fiber wrap for optimum balance and heat dissipation.

Barrel: 18 in. OA Length: 37.25 in. Weight: 6.7 lbs. (empty) Stock: Aluminum chassis

Finish: Matte black

Action: Semi-auto

Capacity: 10

Sights: None, Picatinny rail

MSRP: \$949

IMPULSE BIG GAME 6.5 CM

When speed is the name of the game, the straight-pull action at the heart of Savage's new IMPULSE Big Game model delivers like no other bolt-action can. This new American-made Savage rifle is instinctive and fast—and every inch of the rifle encompasses breakthrough technology for repeat accuracy and enhanced safety.

SILVERTIP RIMFIRE

Silvertip Rimfire is a worthy extension of Winchester's proven Silvertip brand, turning the .22 LR into a valid self-defense round. Optimized for the shorter barrels commonly used for self-defense, the segmenting hollow-point bullet achieves devastating energy transfer by splitting into four pieces upon impact, while the bullet's base still achieves deep penetration.

DIAMOND GRADE 12 GAUGE

AA Diamond Grade is the premier product for the accomplished clay target shooter. Loaded with super high antimony lead shot that is precision sorted and copper plated, the pattern density and performance of this product is unmatched, yielding solid breaks on even the most demanding targets. Four different 12-gauge sporting clays loads are available.
